SPEAKER KIT

Yohanes Kurnia Widjaja

TECHNOLOGY FUTURIST · ROBOTICS INNOVATOR · AI EDUCATOR · ENTREPRENEUR

Engineering the Future. Empowering Humanity.

SHORT BIOGRAPHY

Yohanes Kurnia Widjaja is the founder and CEO of PT SARI Teknologi Global and Sekolah Robot Indonesia, and the founder of Robopark Indonesia and the World Robot Games. Since 2000 he has worked where education meets technology: from an English school to robotics classes in hundreds of schools, national robotics curricula, service robots such as ROPI, robots for Indonesian industry and public institutions, and partnerships with universities on AI and robotics.

RECENT TALKS

July 2026
The AI Generation
TEDxTMS Meruya Youth 2026

July 2026
AI service robots, humanoids and Robot-as-a-Service
BINUS University industry collaboration meeting (Visiting Professor Programme)

TOPICS

The generation that will work alongside robots
His TEDx 2026 talk. AI will not decide the future; people who learn to work with it will.

Building technology creators, not just users
Why children should build robots, and what schools need to make it happen.

Robots in public life
Service robots in malls, campuses and public institutions, and what they need before they are ready.

From classroom to factory
Robotics education for Indonesia's industries, and the path from a student project to a product.

Trust in everyday robots
Privacy, transparency and acceptance when robots read faces and emotions.

WAYS TO WORK TOGETHER

Keynotes · Consulting · Board advisory · Mentoring · Teaching
